Academic Projects

- **ONLINE EMPLOYEE LEAVE MANAGEMENT SYSTEM**

The main point of view of our project is - "Employee can apply leaves to their urgent time"

- **RETAIL MANAGEMENT SYSTEM**

Retail Management System is a business management software. We use this system to create a seller, add a product, generate customers bill, generate a sales report, summarize sales, and handle account-related tasks, among other things. The project seeks to provide a system with expanded and more flexible functionalities to the shop by presenting a point of sale (POS) System as a substitute for previous manual methods.
